EDUCATION

Carnegie Mellon University

Master of Science, Electrical & Computer Engineering

- Concentration: Artificial Intelligence & Machine Learning Systems
- GPA: 3.75/4.00

Pittsburgh, PA

2020 - 2022

Carnegie Mellon University

Master of Information Systems Management

- Concentration: Business Intelligence & Data Analytics
- GPA: 3.91/4.00

Pittsburgh, PA

2020 - 2022

United States Military Academy

Bachelor of Science, Electrical Engineering · Mathematics

- Concentrations: Optical Signal Processing · Applied Mathematics
- GPA: 3.72/4.00

West Point, NY

2013 - 2017

PROFESSIONAL EXPERIENCE

Data & Innovation Directorate, U.S. Army Recruiting Command

Data Integration Lead

- Built the command's first unified data environment, integrating over 20 enterprise systems into automated data pipelines that fed a new application used at all echelons, including the commanding general, who's performance review named me as the best technical captain she's seen in her career.
- Developed an automated reporting pipeline that supported both internal requirements and external compliance reports provided to Congress and senior government officials; expanded the organization's reporting throughput by 50% while virtually eliminating errors.
- Framed and implemented a data strategy for an organization with a \$14M annual technology budget; advised and directly oversaw the reallocation of over 10 legacy contracts to more modern capabilities, resulting in the delivery three top workforce needs in addition to \$4M in taxpayer savings.

Chicago, IL

2024 - Present

A.I. Task Force, U.S. Army Futures Command

Product Lead

- Scaled a product from an initial concept pitch, through the creation of an MVP, to a full scale enterprise software application deployed across multiple classified DOD network levels; enabled more timely access to operationally relevant data at the point of greatest need.
- Led a cross functional team of 10 Officers and 10 contractors, with a \$4M annual development budget, driving technical strategy, roadmap execution, and stakeholder alignment; delivered capabilities to government stakeholders 10x as fast as other procurement channels.
- Worked with the Army's CIO to incorporate industry standard CI/CD practices into codified policy; resulted in a path to production that supported multiple daily deployments, across classification levels, in the otherwise rigid compliance & security framework of the government.

Pittsburgh, PA

2022 - 2024

11th Airborne Infantry Division, U.S. Army

Battalion Logistics Officer

- Successfully managed the deployment of ten containers, 40 vehicles, and 400 Paratroopers, as part of a show-of-force airborne operation into Guam, within 30 hours of notification; exceeded the deployment standard for contingency response operations in the pacific theater.
- Deployed a 700-person organization, with \$50M of vehicles and sensitive equipment, by air, sea, land, and rail during the height of COVID-19; meet operational timelines in spite of highly constraining international and interstate movement restrictions imposed during this time.

Anchorage, AK

2019 - 2020

Rifle Platoon Leader

- Led and developed a platoon of 40 paratroopers, with \$5M in technical equipment; planned, resourced, and executed high risk training, achieving a top 5% evaluation; inspired one Paratrooper to attend and graduate West Point and two to graduate Ranger School.

2018 - 2019

CERTIFICATIONS & TECHNICAL COMPETENCIES

Certifications CompTIA Security+ · Palantir Foundry Application Developer · Palantir Foundry Data Engineer

Programming Python · SQL · Linux · Git · Docker · Kubernetes · Typescript · PyTorch · Java · LaTeX · MATLAB · C · R · VHDL

Competencies Data Science · Data Engineering · Machine Learning · Application Development · CI/CD · Containerization · Software Ops

Other Active Top Secret / SCI Clearance · U.S. Army Ranger School Graduate · Real Estate Affiliate Broker · Master Scuba Diver

HONORS & AWARDS

30 Under 30, Pittsburgh Business Times

2024

U.S. Army A.I. Scholar

2020

William T. Ryder Award, Honor Graduate, U.S. Army Airborne School

2018

Most Outstanding Electrical Engineering Graduate, West Point Class of 2017

2017

Research Published in *SPIE Proceedings* and presented at *Photonics West*

2016
